LEIGHTON HALL

SCHOOLS

OUTDOOR AND INDOOR EDUCATIONAL VISITS THAT ARE SAFE AND STRESS FREE, DELIVERED BY QUALIFIED AND EXPERIENCED PRACTITIONERS

SURVIVAL SKILLS

Adaptable for Key Stages 1 & 2

True breakout learning in a safe, natural environment

Unique hands-on learning, with fully supervised sessions in bushcraft and survival skills and a role play "rescue". Including shaping wood, making a shelter, lighting a fire and fire safety. Using play, exploration, and supported risk-taking, the activities are proven to develop confidence, social skills, team-work and self-esteem.

WILDLIFE HABITATS

Ideal for Key Stages 1 & 2

Discovering a world of wonderful wildlife

Who do we share our environment with? Use your map to discover wildlife in the Leighton woods and garden, learn to recognise them by their tracks, eating and nesting habits. Work as a team to discover the relationship between the human and animal world and choose a selection of wildlife habitats to make and take home. Then share your findings while enjoying marshmallows over a supervised campfire.

FOOD FOR THOUGHT

Ideal for Key Stages 1 & 2

Sustainable skills to delicious discoveries

Exploring the fruit and vegetables in Leighton's kitchen garden. Learn where real food comes from, how we grow it, and changing tastes through time. Then branch out on a supervised foraging walk, discovering the delights of edibles / how to avoid non-edibles, before returning to Leighton's outdoor kitchen to turn your bounty into a delicious meal.

AMAZING POLLINATORS

Ideal for Key Stages 1 & 2

Bee inspired by the team-workers of the natural world

Get up close and personal with the industrious inhabitants of Leighton's Bee Corner and discover how vital they are to us. Learn to identify key pollinators and grow your knowledge from hidden clues in the garden and Woodland Walk, before coming together to make bee houses. Discuss how to make your school grounds, home gardens or window boxes more pollinator friendly, over treats around a supervised campfire.

HOUSES AND HOMES

Ideal for Key Stages 1

Bringing history to life

A fascinating journey discovering how Victorian life, inventions, occupations and food evolved into 21st century family life. Explore Leighton Hall and compare it with your own home. History is brought to life through role play and the tales told by Leighton's child friendly guides.

UPSTAIRS DOWNSTAIRS

Ideal for Key Stages 2

Discover what life was like for Victorian children

Explore what life was like for Victorian children living either as part of the Gillow family (upstairs), or the families who worked as staff below stairs. Try on the different clothes they wore, discuss the food they ate, and enjoy the games they played. Handle antique gadgets and create your own family tree.
